▪ Please keep your presentation time around 10minutes to have enough discussion time.

<Scientific Program> ver.5

30 Jan. (Sat)

16:00–19:30 Scientific Program

Opening Remarks Yasushi Ito Shinrakuen Hospital

Free paper presentation 1: AIS etc **16:10–17:00**

 moderator: Bumpei Kikuchi Niigata Prefectural Central Hospital

1) SNAKE mechanical thrombectomy, is it beneficial?

 Satoshi Kurabe

 Tachikawa General Hospital

2) Acute ischemic stroke with tandem ICA and M1 occlusion

Ahmed Alshanbari

Seoul St Mary's Hospital, The Catholic University of Korea

3) Endovascular treatment for acute ischaemic stroke caused by vertebrobasilar artery dissection: Report of three cases and a review of the literature.

Ryushi Kondo

Saitama–Sekishinkai Hospital

4) Two cases of SAH due to vertebral artery dissection

Satoshi Shibuma

Niigata City General Hospital

Free paper presentation 2: AVF 17:00–17:50

moderator: Hitoshi Hasegawa Niigata University

5) ONYX migration into normal vessels during trans–arterial embolization for dAVFs

Kazuhiko Nishi

Okayama University

6) Transvenous approach for Cavernous sinus DAVF

Jai Ho Choi

Seoul St Mary's Hospital, The Catholic University of Korea

7) Transvenous embolization for direct carotid–cavernous fistula, symptomatic, in a patient with Neurofibromatosis type I

Naoya Iwafuchi

Kohnan Hospital

8) A case of craniocervical junction arteriovenous fistula cured by embolization with a consideration of its angioarchitecture.

Yuji Matsumaru

Tsukuba University

Free paper presentation 3: Aneurysm1 17:50–18:40

moderator: Tomoaki Suzuki Niigata University

- 9) A case of unruptured AcomA aneurysm – How do you treat it –

Tomohisa Ishida

Sendai Medical Center

- 10) Complex coil protection technique for side branched wide neck aneurysms

Keisuke Sato

Toyama Prefectural Central Hospital

- 11) FRED for treating recurrence of a ruptured BA trunk aneurysm after coil embolization

Joonho Chung

Yonsei University Severance Hospital

- 12) Morphological Changes of a Stented Artery With Multiple Overlapping Stents for Partially Thrombosed Vertebral Artery Aneurysms

Tomoaki Suzuki

Niigata University

Free paper presentation 4: Aneurysm2 18:40–19:40

moderator: Yasushi Ito Shinrakuen Hospital

- 13) Second-stage flow diversion with coil embolization for cerebral aneurysm: a safety and efficacy analysis

Yosuke Kawamura

Dokkyo Medical University, Saitama Medical Center

14) Delayed occlusion of anterior choroidal artery following PED embolization for a large IC-PC aneurysm: a case report

Wataro Tsuruta

Toranomon Hospital

15) One year follow-up of WEB for intracranial aneurysms: first experience in Korea

Yong Sam Shin

Seoul St Mary's Hospital, The Catholic University of Korea

16) Initial experience of PulseRider stent for MCA aneurysm

Naoto Kimura

Iwate Prefectural Central Hospital

17) TBA

Yong-Cheol Lim

Ajou University Hospital

Closing Remarks and Online Toast Yasushi Ito Shinrakuen Hospital

19:45- Online Magic Show by world renowned magician, Taro-chan!
